

A simple state sanctioned
\$150 home inspection
can save you thousands
on your annual
Home Owners Insurance
Policy!

Wind Mitigation Inspections

Commerce Park Design & Construction provides Wind Mitigation Inspections for **Home Owners** and **Insurance Agencies** in Pinellas, Pasco and Hillsborough counties.

As a homeowner with windstorm insurance, state law entitles you to certain premium reductions, but without an inspection, you can't get them! If you haven't had a windstorm insurance inspection at your current home, **YOU MAY BE PAYING TOO MUCH FOR YOUR WINDSTORM INSURANCE!**

Features qualifying for a Windstorm Mitigation Insurance Discount:

- Most roofs installed after March 2002 with shingles that meet FBC Requirements.
- Roof decks that have been installed with large nails and close spacing.
- Hurricane clips/straps that hold the roof structure to the walls.
- Protection of openings such as windows and glass doors with impact resistant glazing.
- Secondary Water Resistance preventing the roof from leaking if the roof is blown off in a storm.
- Newly Constructed Homes built to the Florida Building Code since March, 2002

Almost all home owners qualify for a **significant** insurance discount based on this inspection.
